

Technical data sheet for

P8M PROVER/HOLDING CABINET

Full Size Manual / Electric

P8M

Unit shall be a Blue Seal electrically heated Turbofan Prover and Holding Cabinet. The prover and holding cabinet shall have double skin construction with stainless steel interior and exterior sides, front and top. Door shall be side hinged and field reversible. Unit shall have capacity for up to 16 half size sheet pans or 8 full size sheet pans. A single speed fan shall gently and evenly circulate air around the cabinet. Cabinet shall be controlled by a mechanical thermostat and humidity via a control of the water tank. A thermometer shall indicate the cabinet temperature. Prover and holding cabinet shall be mounted on castors, with two rigid castors at rear and two swivel castors dual swivel and wheel lock and front. Prover and Holding cabinet shall operate independently or in combination with Blue Seal Turbofan model E32D4 or G32D4 Convection Ovens. Prover and Holding Cabinets shall be fitted with 13A cordsets. Unit shall be supplied in 100% recyclable shipping packaging.
