

Food2Go

Ambient + Hot

Food2Go is a mobile serving platform for cook to serve applications. A perfect product when you need a versatile all-in-one product for transporting, holding and serving meals. The unit transports plates, single-portion, as well as containers. The spacious top surface fits up to three full size GN 1/1 containers with two GN 1/1 built-in ceramic heating plates to assure maintained temperatures during food service. Other features are adjustable ventilation for optimal moisture control, ergonomic push/pull handles and big castors for easy movement. A ScanBox is a Scandinavian designed product made for both back and front of house, especially with the Signature option with the possibility to customize the exterior design. Convection heating is offered as an option.
