

## Under Counter Hot

Under Counter Hot is a light weight, but robust, cart for holding and transportation of hot food with GN1/1 capacity. Detachable U-shaped runners offer safe handling, easy cleaning and optimal temperature distribution. Infinitely variable temperature setting is performed via digital displays which indicates when the selected temperature is reached. Adjustable ventilation for optimal moisture control. A ScanBox is a Scandinavian designed product made for both back and front of house, especially with the Signature option with the possibility to customize the exterior design. Convection heating is offered as an option.
