## Poster Printing Service

We provide a poster printing and design service to accompany our range of Poster Frames, Snap Frames and Pavement Signs. We can print from artwork you supply or we can design a poster for you. Condensation can occur in some outdoor displays, which would damage paper posters. For outdoor poster displays and pavement signs we would recommend using the waterproof posters as these will not be effected should they get wet. We will always send you a design proof for your approval prior to printing. Details on how to send us your artwork is detailed below.

- ✓ Stock posters available
- ✓ 48 hour turnaround
- ✓ A range of substrates and sizes
- ✓ Protective laminates available
- ✓ Friendly and helpful design team

### How do I upload my artwork?

You can email your artwork directly to us or for large files please email us and we will send you instructions.

### What files do we accept?

We can print from most file types: .jpg, .eps, .pdf, .ai - we cannot print direct from Microsoft files such as Word, Publisher or Powerpoint but we can easily recreate those file types. The most important thing to remember is all graphics need to be 300dpi. All fonts must be created to outlines. (curves, paths) Colours: All colours must be in CMYK only. No RGB or spot colours. To get a strong dense black when making up your artwork please flood it with 100% of all the colours. This will then give a nice vibrant black background.

### What resolution does the artwork need to be?

The resolution for your artwork needs to be set at 300dpi. Anything less we cannot guarantee the quality of your artwork. All the imported graphic contained within the design also need to be 300dpi resolution. **IMPORTANT:** Do not copy logos and images from websites the resolution will be poor and they will not print well.

### What size does my document need to be?

We ideally need the artwork supplied to us actual size. (100%). Artwork over 5 metres should be supplied to us at 25% of actual size. We can supply a template document for your banner or roll up banner as either a Photoshop or Illustrator format, simply email and we will email it back to you.

*We can print posters to almost any size and mount them onto a variety of boards, see page 25*

#### Satin Paper

220gsm standard poster paper suitable for indoor use only.

#### Waterproof Posters

Printed onto polypropylene film these posters are UV & scratch resistant. Suitable for outdoor use.

#### Back Lit Poster

Printed onto translucent film these posters are perfect for backlit poster displays.

Poster Size (mm)	Satin Paper Posters	Waterproof Posters	Back Lit Posters
A3 (420 x 297)	PP001	PP008	PP015
A2 (594 x 420)	PP002	PP009	PP016
A1 (841 x 594)	PP003	PP010	PP017
A0 (1189 x 841)	PP004	PP011	PP018
20" x 30" (508 x 762)	PP005	PP012	PP019
30" x 40" (762 x 1016)	PP006	PP013	PP020
40" x 60" (1016 x 1524)	PP007	PP014	PP021

## Design Service

Working with the text and images you supply our designers will create professional, print-ready artwork on your behalf. Usually this is a free service, for more complex jobs there may be an artwork charge. Our free design service does not include the creation of bespoke logo's or illustrations.

Whilst we have a large library of images and fonts and create great designs for our customers for very specific requests we may need your help in supplying suitable images.

Send us your design brief (this can be in the format of a word file or similar) together with any necessary logos or pictures (remember these need to be hi-resolution and NOT taken from a website!)

We will put your artwork together and send you a proof for your approval prior to printing. Please allow us up to 2-4 days to design your graphic/artwork.

- ✓ Fast turnaround
- ✓ Stock images available
- ✓ Protective laminates available
- ✓ Friendly design team
- ✓ Range of sizes & substrates

### 1.8 Metre Banner

CBS027 Single Sided Banner Print 1.8m

CBS028 Double Sided Banner Print 1.8m

CBS029 Mesh Single Sided Print 1.8m

### Double Sided Print

#### Light Block PVC 750gms

Reinforced and totally opaque, this is perfect for double-sided print, long outdoor life and vibrant colour reproduction. The 'easy wipe clean' surface makes it ideal for front-of-house food and drink environments.

### Single Sided Print

#### Front-Lit PVC 360gms

This material has woven reinforcement, resulting in a slight surface texture. It provides a high quality print surface on one side with the option of white or single colour on the reverse, with vivid colour reproduction across the full spectrum.

### Mesh Single Sided Print

#### Mesh PVC 380gms

Provides a semi-transparent finish and allows some air to pass through, making it ideal for windy locations, 'subtle branding' and creating a 'style-bar' look. Full colour print is available on one side (white on reverse).

# OUTDOOR FLYING BANNERS

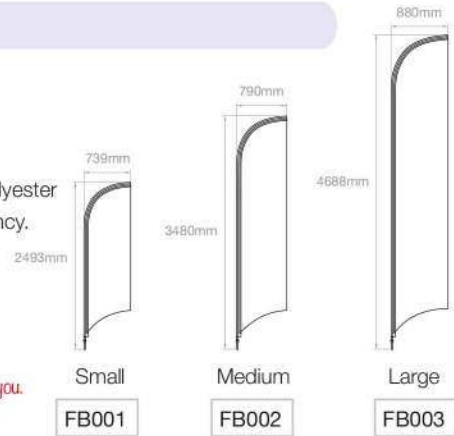

## Feather Flying Banner

**BASES SOLD SEPARATELY**

- ✓ High strength sectional carbon fibre pole.
- ✓ 3 flag styles each in 3 sizes.
- ✓ Market leading quality and performance.
- ✓ Printed flags in 115gsm close weave knitted polyester textile, chosen for its durability and image vibrancy.
- ✓ Optional black reinforced elasticated sleeve.
- ✓ Choice of mounting accessories available.

We can print from your artwork or we can design for you.  
See page 11. Flag & Banner Artwork Information

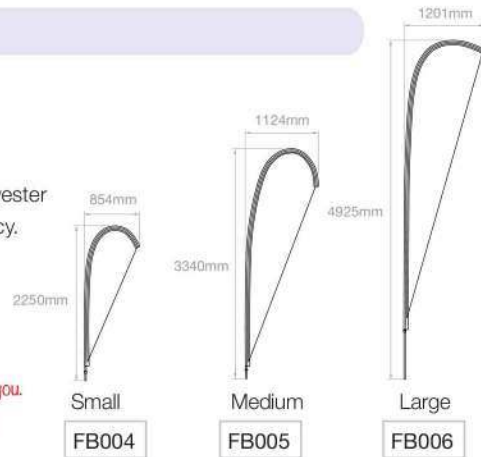

## Tear-drop Flying Banner

**BASES SOLD SEPARATELY**

- ✓ High strength sectional carbon fibre pole.
- ✓ 3 flag styles each in 3 sizes.
- ✓ Market leading quality and performance.
- ✓ Printed flags in 115gsm close weave knitted polyester textile, chosen for its durability and image vibrancy.
- ✓ Optional black reinforced elasticated sleeve.
- ✓ Choice of mounting accessories available.

We can print from your artwork or we can design for you.  
See page 11. Flag & Banner Artwork Information

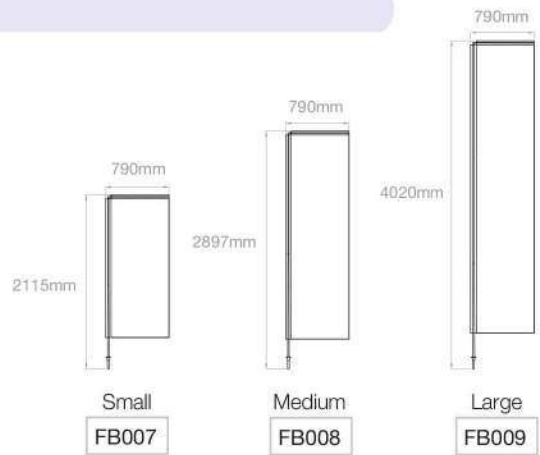

## Rectangular Flying Banner

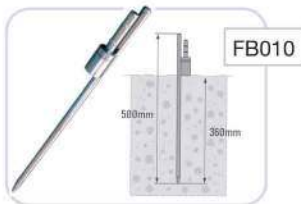

**BASES SOLD SEPARATELY**

- ✓ High strength sectional carbon fibre pole.
- ✓ 3 flag styles each in 3 sizes.
- ✓ Market leading quality and performance.
- ✓ Printed flags in 115gsm close weave knitted polyester textile, chosen for its durability and image vibrancy.
- ✓ Optional black reinforced elasticated sleeve.
- ✓ Choice of mounting accessories available.

We can print from your artwork or we can design for you.  
See page 11. Flag & Banner Artwork Information

## Don't forget to order your bases for your Flying Banners

**Ground Spike**

Chrome plated steel spike for soft ground, sand or snow. Bearing spindle for smooth flag rotation. Male pole connections with 'O' rings provide a perfect and secure fit as well as offering free rotation to deflect wind loading..

**Cross Base & Water Bag**

Ideal for use on hard standing ground, indoors or out. Powder coated steel cross base, with ball bearing central pivot for friction-free flag rotation. Male pole connections with 'O' rings provide a perfect and secure fit. Holes at end of feet allow for pegging to soft ground (pegs not included). Optional Water Bag available separately for added stability

**Tank Base**

Far superior to alternative 'parasol' base offerings, 14 litre capacity, for water or kiln-dried sand. Made from high density polyethylene (HDPE). Designed for ease of handling even when full – satisfies manual handling guidelines. Stackable design – second tank is recommended for large flags outdoors. Provides up to 40kgs of ballast but remains easy and safe to carry in 2 parts

# OUTDOOR PROMOTIONAL BANNERS & FLAGS

## Business & Promotional Banners - Bespoke sizes available - Print Landscape or Portrait

From simple business promotions to grand openings, we can create banners for all occasions. Our design studio can print your banner from artwork you supply or we can design a banner for you. Call for further details.

**BESPOKE SIZES AVAILABLE**

Lamp post & Wall mount options available

Call for further details:

- ✓ Banners are printed at high resolution for quality print.
- ✓ Hemmed and eyeleted as standard with PVC Banners
- ✓ Quality banner material for strength & durability.
- ✓ Printed with full solvent UV stable waterproof inks for maximum life.
- ✓ Flat sealed hem, to prevent the hem filling with water and drooping.
- ✓ Mesh option for lighter weight or for windy places.

Banner Size (mm)	Single sided Print PVC	Double Sided Print PVC	Single Side Print Mesh

Printed both sides.  
Complete with  
hanging fixings

CPS003  
Square Sign  
Printed both sides.  
Complete with hanging fixings.

### CPS004 - Swing Limiter

We offer a metal cable attachment to reduce how far your sign can swing. This help prevent damage to your sign in harsh weathers.

Item	Dimensions (mm)	Product Order Code
Bracket Only	860(l)x500(h)x1209(w)	CPS001
Oval Sign	530 x 740	CPS002
Square Sign	600 x 600	CPS003
Swing Limiter	100 x 600	CPS004

## Design Service

Working with the text and images you supply our designers will create professional, print-ready artwork on your behalf. Usually this is a free service, for more complex jobs there may be an artwork charge. Our free design service does not include the creation of bespoke logo's or illustrations. Whilst we have a large library of images and fonts and create great designs for our customers for very specific requests we may need your help in supplying suitable images. Send us your design brief (this can be in the format of a word file or similar) together with any necessary logos or pictures (remember these need to be hi-resolution and NOT taken from a website!)

## Bespoke Printed Metal Projecting Signs - Choice of 3 shapes - Double sided print

**PRICE INCLUDES PRINT**

Low cost, high impact flat projecting signs, available in 3 standard shapes.

Custom Made Sign Panels

PRICE INCLUDES GRAPHICS

Our design studio can create a sign for you, providing proofs before production or you can send in your own artwork, type style, photo images and logo's for our team to use. Our artwork and design service is usually free, however for more complex jobs there may be a small artwork charge.

Temporary, Short Term & Exhibition Signs

For temporary or short term signs we offer a lightweight bubble centred board.

- ✓ Waterproof
- ✓ Easy to punch or drill
- ✓ Durable & Flexible
- ✓ Low Cost

Medium Term Signs & Interior Displays

For medium to long term signs we offer a 5mm Foam board.

The most universal display material. Foam board is strong, durable and also flexible. Perfectly flat and smooth surface ensures an excellent printing result for the most demanding indoor displays and outdoor signboards.

Long Term Signs & Fascias

For long term signs we offer a 3mm aluminium composite board

Printed on a sandwich of plastic polymer with a skin of aluminium either side. Strong, relatively light and dimensionally stable it is easy to drill and fit on site and offers an outdoor life of 5+ years.

We can supply and print boards to almost any size and shape. Call us for a quote...

Our Design Service

Working with the text and images you supply our designers will create professional, print-ready artwork on your behalf. Usually this is a free service, for more complex jobs there may be an artwork charge. Our free design service does not include the creation of bespoke logo's or illustrations.

Whilst we have a large library of images and fonts and create great designs for our customers for very specific requests we may need your help in supplying suitable images.

Send us your design brief (this can be in the format of a word file or similar) together with any necessary logos or pictures (remember these need to be hi-resolution and NOT taken from a website!)

We will put your artwork together and send you a proof for your approval prior to printing. Please allow us up to 2-4 days to design your artwork.

**How do I upload my artwork?**

You can email your artwork directly to us or for large files please email us and we will send you instructions.

**What files do we accept?**

We can print from most file types: .jpg, .eps, .pdf, .ai - we cannot print direct from Microsoft files such as Word, Publisher or Powerpoint but we can easily recreate those file types. The most important thing to remember is all graphics need to be 300dpi. All fonts must be created to outlines. (curves, paths) Colours: All colours must be in CMYK only. No RGB or spot colours. To get a strong dense black when making up your artwork please flood it with 100% of all the colours. This will then give a nice vibrant black background.

**What resolution does the artwork need to be?**

The resolution for your artwork needs to be set at 300dpi. Anything less we cannot guarantee the quality of your artwork. All the imported graphic contained within the design also need to be 300dpi resolution. **IMPORTANT:** Do not copy logos and images from websites the resolution will be poor and they will not print well.

**What size does my document need to be?**

We ideally need the artwork supplied to us actual size. (100%). Artwork over 5 metres should be supplied to us at 25% of actual size. We can supply a template document for your banner or roll up banner as either a Photoshop or Illustrator format, simply email and we will email it back to you.

# OUTDOOR / INDOOR SIGN PANELS

## Digitally Printed Wall Mounted Signboards - Free Design Service

**PRICE INCLUDES GRAPHICS**

These signs are available in 3 standard sizes, printed onto a 3mm aluminium composite panel, a sandwich of plastic polymer with a skin of aluminium either side. Strong, relatively light and dimensionally stable it is easy to drill and fit on site and offers an outdoor life of 5+ years with radius corners. The print is protected by a hard wearing durable laminate in a choice of gloss or satin finish. Optional stand off wall fixings also available.

Our design studio can create a design for you, providing proofs before production or you can send in your own artwork, type style, photo images and logos for our team to use. Call us for further details.

**Stand off Wall Fixings**  
Diameter: 12mm, Supplied in a pack of four. Sold separately. **SWF001**

Sign Size (mm)	Product Code
300 x 400	WM001
400 x 600	WM002
600 x 900	WM003

## Exterior Wall Mounted Notices - 8 Colour options - 2 Size options

Material: 3mm composite aluminium panel. 8 colours styles available. Weatherproof and rot-proof. Standard: 300 x 400mm. Large: 400 x 600mm.

### How to order:

Choose your colour style by adding the (suffix) below after the product code: e.g. EW009(W/B) = 'Car Park Disclaimer'

- White text on Black panel. **(GO/B)** Gold text on Black panel
- (B/W)** Black text on White panel   **(W/G)** White text on Green panel   **(GR/C)** Green text on Cream panel
- (W/B)** White text on Black panel   **(B/Y)** Black text on Yellow panel   **(W/BR)** White text on Brown panel
- (W/R)** White text on Red panel   **(W/BL)** White text on Blue panel   **(G/BR)** Gold text on Brown panel

EW009 (suffix) 300 x 400mm  
EW010 (suffix) 400 x 600mm

EW011 (suffix) 300 x 400mm  
EW012 (suffix) 400 x 600mm

EW017 (suffix) 300 x 400mm  
EW018 (suffix) 400 x 600mm

EW003 (suffix) 300 x 400mm  
EW004 (suffix) 400 x 600mm

EW015 (suffix) 300 x 400mm  
EW016 (suffix) 400 x 600mm

EW013 (suffix) 300 x 400mm  
EW014 (suffix) 400 x 600mm

## Catering Safety Signs - Essential Information for the Caterer

This Catering Essentials section offers a comprehensive range of health and safety signs, food labels and associated products for the caterer. Signs & Labels play an important roll in the kitchen, helping staff conform to food safety and kitchen hygiene. Signs reduce the risk of accidents and injuries by making staff more aware of potential hazards in the kitchen. Food storage labels reduce food waste, first in - first out.

All signs and food labels have been designed from information provided by following government bodies:

- ✓ Signs Helps staff conform with Health & Safety Requirements
- ✓ Reduces the risk of food contamination, accidents and injuries
- ✓ Signage Makes staff more aware of potential hazards
- ✓ Promotes confidence with staff, customers and Health & Safety Officers

## Catering Safety Signs WHERE TO PLACE THEM & WHY

This notice should be placed near to machines, such as large bowl mixers and food processors. The Notice reminds staff that they are dangerous to clean and should only be used by staff with appropriate training.

Persons under 18 years should never be allowed to clean these machines even if they are trained in their use.

Colour coding chopping board sign to illustrate the different boards for different types of food to remind users of their specific purpose.

This is to reduce the risk of cross contamination e.g. between raw and cooked foods.

Place this sign outside of the kitchen or returning crockery and cutlery to wash their hands on entering the kitchen. Clean protective over clothing should also be worn. Catering staff must always wear Chef's style protective over clothing and never uniforms worn in base rooms.

This is an alternative notice for refrigerator that identifies the correct operating temperatures and steps to take to avoid risks of cross contamination.

It is the preferred styles of notice.

This is an alternative notice for freezers that identifies the correct operating temperatures and steps to take to avoid risks of cross contamination.

It is the preferred styles of notice.

This sign to be used to identify a work surface preparation area used just for preparation of raw foods, such as raw meats and vegetables. This is to comply with official guidance on E. coli to reduce the risk of cross contamination.

This sign should be placed adjacent to the sink that is exclusively for washing foods. To remind staff not to use if for other purpose to prevent a risk of cross contamination.

This sign to be used to identify a work surface preparation area used just for foods that is not going to be cooked before it is eaten. This is to comply with official guidance on E. coli to reduce the risk of cross contamination.

The sign should be placed adjacent to wash hand sinks in the kitchen and milk kitchens to remind staff that they should not be used for washing anything but hands. It is illegal for them to be used for other purposes.

This Sign should be placed adjacent to a sink that is used for washing food equipment, pot, utensils etc. To remind kitchen staff not to use foods or hand washing.

This serves as a reminder to separate cooked and raw food together. It can be placed on fridges & freezers. There is a risk of cross contamination from raw meats, vegetables and other similar raw foods. One of the main failings found in audits relates to food being incorrectly stored together in fridges and freezers.

THERE IS A LEGAL OBLIGATION TO PROVIDE INFORMATION & TRAINING ON HEALTH & SAFETY TO ALL EMPLOYEES

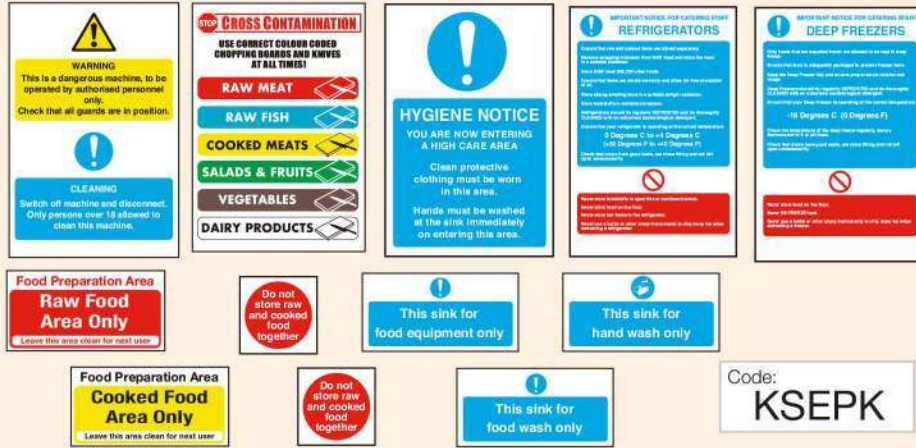

# CATERING HEALTH & SAFETY STARTER SIGN PACKS

There is a legal obligation to provide information and training on health and safety to all employees. These packs have been designed to help the employer keep staff aware of all aspects of food hygiene and kitchen safety. Compliant with The Health & Safety Law, Food Safety Regulations and HACCP (Hazard Analysis Critical Control Point). Notices are printed on self adhesive vinyl for easy fixing to fridges, doors, tiles and most kitchen surfaces.

# KITCHEN STAFF HYGIENE & SAFETY NOTICES

## Staff Hygiene & Safety Notices

Be safe in the workplace with these simple to apply self adhesive vinyl notices.

**Keep all cuts and abrasions covered with a suitable waterproof dressing**

CS006 300x200

**Wear apron in this area**

CS149 300x200

**Protective clothing must be worn in this area**

CS150 300x200

**Hair covering must be worn in this area**

CS151 300x200

**ALL STAFF PLEASE NOTE**  
GUIDANCE TO THE FOOD SAFETY ACT 2006

- Always wash your hands before handling food and after using the toilet.
- Tell your boss at once of any cuts, nose, throat or bowel trouble.
- Cuts and sores are covered with waterproof dressings.
- Keep yourself clean and wear clean clothing.
- Do not smoke in a food room if it legal and dangerous. Never cough or sneeze over food.
- Clean as you go. Keep all equipment and surfaces clean.
- Prepare raw and cooked food in separate areas. USE COLOUR CODED CHOPPING BOARDS AND KNIVES to avoid cross contamination.
- Ensure food is at correct temperature at all times. READ COOK CHILL GUIDELINES.
- Keep your hands off food as far as possible.
- Ensure waste food is disposed of properly. Keep lid on the dustbin and wash your hands after putting waste in it.
- Delivery of food to your premises should be checked to ensure they are at the correct temperature on receipt. IF IN DOUBT ADVISE YOUR SUPERVISOR.
- Tell your supervisor if you cannot follow the rules. Do not break the law.

CS002 300x200

**CATERING HYGIENE**

**PERSONAL CLEANLINESS**

1. Keep your body clean at all parts of your body at all times and especially your hands and forearms. Wash your hands before and after handling food.
2. If you have any cuts or abrasions cover them with a waterproof dressing.
3. If you have any sore eyes, nose, throat or bowel trouble, tell your supervisor at once.
4. Do not smoke in a food room if it is legal and dangerous. Never cough or sneeze over food.

**HYGIENE**

1. Clean as you go. Keep all equipment and surfaces clean.
2. Prepare raw and cooked food in separate areas. USE COLOUR CODED CHOPPING BOARDS AND KNIVES to avoid cross contamination.
3. Ensure food is at correct temperature at all times. READ COOK CHILL GUIDELINES.
4. Keep your hands off food as far as possible.
5. Ensure waste food is disposed of properly. Keep lid on the dustbin and wash your hands after putting waste in it.

**FOOD AND EQUIPMENT**

1. An individual must not be allowed to handle food unless they are properly trained and supervised.
2. All food must be stored in a clean and hygienic manner.
3. All food must be stored in a clean and hygienic manner.
4. All food must be stored in a clean and hygienic manner.

CS083 300x200

**Application of Hand Sanitiser**

1. **STOP**  
Wash your hands with soap and water.
2. **CLEAN**  
Apply hand sanitiser to all surfaces of your hands.
3. **GO**  
Dry your hands thoroughly.

Ensure hands are clean before using hand sanitiser. Dose hand with 1 pump. Rub hands for 30 seconds until sanitiser evaporates.

CS121 300x200

**IMPORTANT INFORMATION FOR CATERING STAFF: GLOVE GUIDELINES**

1. Wear food service gloves or use sanitary utensils or dull tissue when handling ready-to-eat foods.
2. Wash your hands before putting on gloves.
3. Change gloves when you would need to wash your hands:
  - After touching your body.
  - After using the toilet.
  - After eating or drinking.
  - After handling raw food, or utensils.
  - After any activities that contaminate your gloves.
4. Remove your gloves before washing hands.

CS152 300x200

**THE SAFE USE OF KNIVES**

- Always use the correct knife for the task.
- Always keep knives sharp and handles in good condition.
- Always use a firm grip and use even pressure for cutting.
- Always cut downwards away from the body.
- Secure cutting blocks and hold the steps and handle firmly in their protective sheaths or knife racks.
- Ensure work space is sufficient so a person using a knife is not in danger of being bumped or passed another person at risk.

Do not attempt to catch a falling knife.  
Do not work around with a knife in your hand.  
Do not leave knives lying around on tables or worktops.  
Do not place knives unsecured in drawers or cupboards.  
Do not leave knives in washing up water.

Any knife found in breach of these Safe Working Procedures will be subject to disciplinary action.

CS153 300x200

**COOKER & OVEN SAFETY**

- Always use protective clothing and equipment provided.
- Always be aware of other people and hands when transferring hot foods and liquids.
- Before cleaning, always turn off the main supply and allow equipment to cool.
- Always switch equipment off when not in use.
- Always report any faults to the supervisor immediately.

Do not use this equipment unless trained and authorized.  
Do not drop towels or wet cloths over equipment to dry.  
Do not use defective equipment.

**CAUTION**  
Hot surfaces and liquids

CS154 300x200

## Recycling Poster & Bin Labels

All the food waste recycling signs in one pack

1 High quality food waste guidance poster  
8 glossy self adhesive vinyl bin stickers; Food waste, mixed paper & card, mixed glass bottles & jars, no recyclable waste, plastic packaging, cartons, food tins & drink cans & cooking oil

- Wipe clean
- Government approved symbols and colours.
- Easy to peel and place.

Code: **FWRPK**

**Remove all jewellery before starting work**

**Personal items not to be kept in food area**

# CATERING EQUIPMENT SAFETY

## Catering Equipment Safety Guideline Notices

All notices printed on self adhesive vinyl.

Designed to inform catering staff and operators of the potential hazards of the equipment, what precautions to take to avoid accidents or injury plus cleaning instructions. A space is provided at the bottom of the notice to write in the sales and service contact details.

**! CATERING EQUIPMENT**  
**OVENS & RANGES**  
**POTENTIAL HAZARDS**  
 Being burned, by either touching a hot surface, or by being in the way of hot air when oven door is opened.  
 Ovens with bottom hinged doors can tilt forward if heavy joints are placed on the open door.  
 There is danger of a gas flashback if a gas oven does not light immediately or when gas which has built up in the oven because of flame failure is ignited.

**PRECAUTIONS TO TAKE**

- Always stand to one side when opening an oven door, and open the door slowly.
- Make sure the taper is lit before you turn on the gas supply, and make sure all gas burners light and remain alight.
- If the fan interlock, if fitted, does not switch off the fan when you open the door report it to your supervisor.

Never use a forced convection oven if the fan guard is not in place.  
 Do not rest anything, heavy, for example a large meat joint while basting, on bottom hinged doors.

**CLEANING**  
 Follow manufacturers instructions on all cleaning procedures.  
 Oven cleaning fluids and pads may contain caustic chemicals which can cause severe burns. Suitable gloves and eye protection should therefore be worn when they are used.

FOR SALES & SERVICE CONTACT:

CE001 260x150

**! CATERING EQUIPMENT**  
**STEAMING OVENS**  
**POTENTIAL HAZARDS**  
 The hazards associated with steaming ovens are scalds, particularly when opening the oven, and burns from touching the hot outer casing.

**PRECAUTIONS TO TAKE**

- Before using the oven, check that the electric heating elements are completely covered with water or that the sump is filled to the correct level.
- Make sure the ball float regulating the water level operates freely.
- Do not use the steamer if the steam vent is obstructed or not working.
- Open the door just a little at first to let the excess steam escape.
- Report any steam leakage around the door seal to your supervisor.
- Keep the drip tray in position.

**CLEANING**  
 Follow manufacturers instructions on all cleaning procedures.  
 Steamer should be turned off, and isolated if electric, and allowed to cool.  
 The water supply should be shut off and the sump drained. Racks and their supports should be removed and the interior washed down, rinsed, dried and reassembled.  
 Any scale should be removed with a proprietary de-scaler. The door should be left ajar to prevent noxious smells forming.

FOR SALES & SERVICE CONTACT:

CE002 260x150

**! CATERING EQUIPMENT**  
**Grillers - Griddles - Salamanders**  
**POTENTIAL HAZARDS**  
 The main hazard associated with this equipment is burns from gas burners or heaters, from hot trays and food or from a gas flashback. There is also a danger of the brander plate or shelf unit being pulled out, falling and injuring fingers or toes.

**PRECAUTIONS TO TAKE**

- Wall mounted units should not be positioned over a range top.
- Always use oven gloves or an oven cloth to handle cooking trays. Use tongs to handle hot food.
- Grilling equipment is often at eye level. Take special care not to burn your face and eyes.
- There should be a minimum distance of 60cm between the top of a grill and any overlying shelf or ceiling.
- Follow the manufacturers recommended lighting procedure for gas-heated griddles. If the automatic ignition, where fitted, fails, a lighted taper should be used to light the burners.
- Gas burner jets require regular maintenance to prevent blockage by food debris or carbon from whatever source. If the burners do get blocked they should be cleared by a gas service engineer. Unqualified cleaning can 'open up' the gas jets and disturb the designed combustion rate.

**CLEANING**  
 Follow manufacturers instructions on all cleaning procedures.  
 Cleaning fluids and pads may contain caustic chemicals which can cause severe burns. Suitable gloves and eye protection should therefore be worn when they are used.

FOR SALES & SERVICE CONTACT:

CE003 260x150

**! CATERING EQUIPMENT**  
**DEEP FAT FRYERS**  
**POTENTIAL HAZARDS**  
 Burns can be caused if the hot oil or fat splashes when the food basket is dropped in carelessly, or if it sits or boils over if there is excess water or moisture in the food. Fire from ignition of hot cooking oil or fat is also a major hazard. Spilled or splashed oil or fat on the floor around the fryer is a major slipping hazard.

**PRECAUTIONS TO TAKE**

- Do not mix oil and fats.
- Do not overfill, check oil level mark.
- Do not leave fryer unattended while in use.
- Check that food is dry before immersing in hot oil. Brush ice crystals off frozen food.
- Do not overload the basket.
- Do not let the basket drop into hot oil.
- Clean up spills or drips from the floor immediately.
- Always return thermostat control to zero when frying is completed.

**CLEANING**  
 Follow manufacturers instructions on all cleaning procedures.  
 Fryer should be turned off and, if electric, isolated, and the oil or fat allowed to cool.  
 Cleaning fluids and pads may contain caustic chemicals which can cause severe burns. Suitable gloves and eye protection should therefore be worn when they are used.

FOR SALES & SERVICE CONTACT:

CE004 260x150

**! CATERING EQUIPMENT**  
**MICROWAVE OVENS**  
**POTENTIAL HAZARDS**  
 Burns and scalds caused when sealed containers containing hot food burst open. Hot food containers and steam also cause burns. Microwave ovens can catch fire if they are not used properly or if their contents overheat.  
 Microwave energy could burn the user if the door seals are faulty or the protective mesh behind the glass door panel slips.

**PRECAUTIONS TO TAKE**

- Do not put metal-decorated or metal dishes in the microwave, unless the manufacturer's user handbook says this is safe.
- Do not cook eggs in their shells in the microwave.
- Always pierce cling film covering food in dishes before cooking. (When removing cling film keep out of the way of the steam).
- Do not cook food in a sealed container unless it has been manufactured for use in a microwave.
- Do not use the oven if the door does not close properly.
- Do not use the oven if it does not switch off automatically when the door is opened.
- Never switch on the oven if it is empty.
- Food containers can be very hot - use an oven cloth or oven gloves.

**CLEANING**  
 All internal surfaces of the oven, including the door, should be cleaned thoroughly every day after use. Pay particular attention to the door seals which should completely seal the oven when the door is closed. Remove any turntable, tray or supports and clean.

FOR SALES & SERVICE CONTACT:

CE005 260x150

**! CATERING EQUIPMENT**  
**FOOD PROCESSORS**  
**POTENTIAL HAZARDS**  
 The main hazards on these machines are the cutter plates and mixing blade that rotate at high speeds, these can cause severe injury to the fingers. Also hot ingredients may be ejected from the bowl and cause scalding.

**PRECAUTIONS TO TAKE**

- Only trained operators should use these machines.
- Always switch off the machine before attempting to remove the lid.
- Never remove the lid until the blade has stopped rotating.
- Always use the pushers provided.
- Never attempt to withdraw processed food from the chute while the machine is switched on.

**CLEANING**  
 Follow manufacturers instructions on all cleaning procedures.  
 Before you start to clean the machine, unplug it, or switch it off at the isolator.  
 Do not rely on machine controls or interlock switches. Caution: some cleaning chemicals can cause discoloration to alloy attachments and render them unusable.

FOR SALES & SERVICE CONTACT:

CE006 260x150

**! CATERING EQUIPMENT**  
**SLICERS**  
**POTENTIAL HAZARDS**  
 The main hazard of these machines is the exposed cutting edge of the blade, which can cause serious cuts and even amputation.

**PRECAUTIONS TO TAKE**

- Do not operate machine without safety training.
- Do not turn on machine unless all safety guards are in place.
- Never touch the knife with your hand.
- Use the pusher, not your hand.
- Never sharpen a dirty knife.
- Always return the slicing thickness indicator to the zero position when work is finished.
- Keep the blade sharp. The operator has to use more force with a blunt blade which increases the risk of slipping onto it.

**CLEANING & SHARPENING**  
 Follow manufacturers instructions on cleaning and sharpening procedures.  
 Always unplug machine before cleaning or removing safety guards.  
 Always clean and sterilise machine after sharpening.  
 On certain machines the blades have to be removed for cleaning. A blade carrier that prevents access to the sharp edge should be used to remove the blade safely.

FOR SALES & SERVICE CONTACT:

CE010 260x150

**! CATERING EQUIPMENT**  
**DISHWASHING MACHINE**  
**POTENTIAL HAZARDS**  
 Using a pot or dishwasher can create a number of hazards. Most types use very hot water which will scald. In some machines the water heating elements inside the dishwasher are within reach, and capable of burning anyone who touches them.

**PRECAUTIONS TO TAKE**

- Always wear rubber gloves when working with very hot water.
- Make sure all guards provided are in position before you start the dishwasher.
- Never put your hands in the dishwasher while it is running.
- Never try to adjust or repair any part of the dishwasher unless you have been trained to do so.
- Never let the maximum water level go over the maximum for the dishwasher.
- Concentrated detergent can burn the skin and eyes. Always wear protective clothing provided when handling, diluting or cleaning up spilled detergent.
- The side panels near the final rinse may be very hot.

**CLEANING**  
 Follow manufacturers instructions on all cleaning procedures.  
 Before a dishwasher is cleaned it should be turned off and isolated from the electrical supply.  
 Under no circumstances should a conveyor dishwasher be cleaned while the conveyor is running.

FOR SALES & SERVICE CONTACT:

CE011 260x150

**! CATERING EQUIPMENT**  
**BAINS-MARIE**  
**HOT SERVING COUNTERS & CUPBOARDS**  
**POTENTIAL HAZARDS**  
 The main hazards associated with this type of equipment are burns and scalds.

**PRECAUTIONS TO TAKE**

- Before the unit is used check that the heating water is up to the correct operating level in the trough and the drain tap is tightly closed.
- Use an oven cloth or wear gloves when handling hot food containers.
- Hold containers over-trough to let hot water or steam drip off.
- Do not leave serving utensils projecting over the edge of the food containers.
- Turn off the heat source when serving is completed.
- When water has cooled, drain the heating water into suitable containers and carry them carefully.

**CLEANING**  
 Follow manufacturers instructions on all cleaning procedures.  
 Before cleaning, the unit should be turned off and the water allowed to cool. Electrically heated equipment should be isolated from the supply.  
 Cleaning fluids and pads may contain caustic chemicals which can cause severe burns. Suitable gloves and eye protection should therefore be worn when they are used.

FOR SALES & SERVICE CONTACT:

CE013 260x150

**! CATERING EQUIPMENT**  
**WATER BOILERS & CAFE SETS**  
**POTENTIAL HAZARDS**  
 The main hazards associated with this type of equipment are burns and scalds.

**PRECAUTIONS TO TAKE**

- Make sure the cold water supply is fully on before you light or switch on the equipment.
- Where there is a feed water tank, the water in it should be at the correct level.
- Do not alter the heating control settings on automatic units.
- Keep pressure gauge and safety devices clean. A pressure boiler and the safety devices should be inspected at least once every twelve months.
- Keep the drip tray in position.
- Keep the receiving vessel up to the tap to stop splashing.

**CLEANING**  
 Follow manufacturers instructions on all cleaning procedures.  
 Before cleaning, turn off at the gas tap or steam valve or, if electric, isolated.  
 Only trained staff should de-scale the equipment following manufacturers guidelines.  
 Staff should never remove safety fittings on pressure boilers.

FOR SALES & SERVICE CONTACT:

CE014 260x150

**! CATERING EQUIPMENT**  
**HEATED RINSING SINKS**  
**POTENTIAL HAZARDS**  
 The main hazard associated with heated rinsing sinks is scalding by very hot water. Sinks fitted with scrubbing brushes can break plates if care is not taken. Deep cuts can be caused by broken crockery. The floor around the sink is often wet and slippery.

**PRECAUTIONS TO TAKE**

- Suitable gloves, aprons and boots should always be worn when working at a heated sink. The gloves should protect the forearms.
- Long handled baskets should be used to immerse crockery etc into the water.
- Never fill the sink above the maximum water level mark. This reduces the risk of scalding water surging and overflowing the sink when, for example, a tray of crockery is immersed in the water.
- Always lower baskets slowly into the water.
- Make sure water does not get into the electrical equipment.
- The thermostat switch should be clearly marked to show if an adjustment is either increasing or decreasing the water temperature. Only trained staff should adjust the thermostat.

FOR SALES & SERVICE CONTACT:

CE012 260x150

**! CATERING EQUIPMENT**  
**WASTE DISPOSAL UNITS**  
**POTENTIAL HAZARDS**  
 The main hazard from waste disposers is the possibility of severe injury should a hand or hand-held implement be put into the feed hopper and come into contact with the cutters while the machine is switched on.

**PRECAUTIONS TO TAKE**

- Turn on the water supply before you switch on the unit, to ensure effective flushing.
- Unsuitable materials such as paper, metal, plastic etc and in most cases bones should be removed from the waste. Feed the suitable waste into the unit at an even rate.
- If the unit does get blocked it should be switched off and unplugged or isolated before any attempt is made to free the blockage.
- Under no circumstances should you put your hands or any hand-held implement into the hopper while the unit is switched on, even if it has stopped moving.
- Guards or restrictor plates which prevent fingers reaching the cutters should always be in position before the machine is used.

**CLEANING**  
 Follow manufacturers instructions on all cleaning procedures.  
 Unit should be turned off and, isolated. Only trained staff should clean the machine.  
 Cleaning fluids and pads may contain caustic chemicals which can cause severe burns. Suitable gloves and eye protection should therefore be worn when they are used.

FOR SALES & SERVICE CONTACT:

CE019 260x150

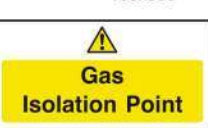

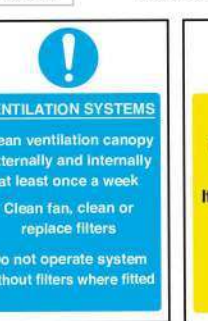

You can have these notices personalised with your company name or logo along with your contact details.  
 The personalisation is free, when your order a minimum mix of ten notices. Call for further details.

## Food Allergen Guide for Catering Staff

The food Standards Agency (FSA) in conjunction with DEFRA have introduced new allergen laws which came into effect December 2014. Restaurants and food outlets are now required to provide details of all possible allergens that are contained within the menu items served. The details of the recognised allergens must be clearly marked in a clearly visible place so that employees of the establishment can provide correct information to consumers.

How To Order:

- 1 State text required.
- 2 Choose the colours you require.
- 3 Email a high quality version of your image and/or logo or we can provide artwork for. Call for details.
- 4 State the quantity required.

We will supply a proof for approval.

# FIRE SAFETY

## Fire Exit Signs

BS EN ISO 7010 emergency escape route signs.

1. Fire Exit and Exit signs should be, so far as reasonably practicable, evenly spread and consistently located at the same height so that the evacuee can quickly and effectively predict the location of the next sign within the escape route.
2. Signs should not be fixed to doors or sited where they may be obscured by open doors.
3. Signs sited on walls should be mounted between 1.7m and 2.0m from floor level measured from the base of the sign.

**S/A:** Vinyl Sticker

- Glossy white vinyl sticks to most surfaces.
- Peel off backing
- Suitable for indoor and sheltered outdoor use

**F/P:** Polypropylene

- 1.2mm white notice
- Recyclable - Environmentally friendly
- Ideal for indoor or outdoor use.
- Can be easily drilled or punched

Recyclable Material

**P/L:** Photoluminescent PVC

- Provides temporary visibility in the dark
- 1mm thick flexible 'glow in the dark' material
- Can be drilled or punched for screw fixing

# FIRE SAFETY

## Fire Action Safety Signs

These notices are the ideal way of informing guests and customers the actions to take in case of fire.

**Fire action**

**WHAT YOU SHOULD DO:**

If you discover a fire Sound the alarm by breaking the glass of the nearest Fire Alarm Operating Point

Call for assistance and attack the fire if possible with the fire fighting equipment provided. **DO NOT RISK PERSONAL INJURY**

Leave the building at once quickly and calmly. If you suspect that there is a fire on the other side of a door, **DO NOT** open it. As you leave the building ensure all the fire doors and windows on your route are closed.

**DO NOT use the lifts**

On hearing the fire alarm Leave the building at once, quickly and calmly by the nearest available route. Escape routes are indicated by GREEN signs. Assist with the evacuation of visitors. **DO NOT** stop to collect personal belongings.

When clear of the building - proceed to your designated fire assembly point

**DO NOT re-enter the building until told to do so by the Nominated Fire Officer**

F/P MS065 300x200  
S/A MS066  
P/L MS067

**Fire Action for members of staff**

**IF YOU DISCOVER A FIRE**

1. Ensure that no one is in immediate danger
2. Sound the nearest fire alarm
3. Call for assistance and attack fire if possible with the appliances provided. **NOT AT THE RISK OF PERSONAL INJURY**
4. Leave building by closing as many doors as possible and go to the fire assembly point

**IF YOU HEAR THE FIRE ALARM**

1. Staff should if necessary see that guests are evacuated from the building and a roll call is taken
2. A designated person should call the fire brigade in accordance with the relevant instructions. Ensure the fire brigade is called to every fire or suspicion of fire

**Do not run**  
**Do not use lift**  
**Do not stop to collect personal belongings**  
**Do not re-enter building until safe to do so**

F/P MS037 300x200  
S/A MS038  
P/L MS068

**Fire action**

**guests and residents**

**BEFORE RETIRING TO BED, YOU SHOULD KNOW:**

1. The nearest means of escape
2. The nearest fire alarm call point and how to use it
3. All doors to and from corridors are to be kept closed

Any person discovering a fire by DAY should:

1. Vacate the room ensuring the door is shut behind you
2. Operate the nearest fire alarm

**IF YOU HEAR THE FIRE ALARM:**

3. Go immediately to the nearest fire assembly point using the nearest exit

**Do not run**  
**Do not use the lift**  
**Do not stop to collect personal belongings**  
**Do not re-enter building until safe to do so**

Any person discovering a fire by NIGHT should:

1. Put on dressing gown and shoes
2. Make sure all others in room are awake
3. Go to the assembly point using the nearest exit

**Do not get fully dressed**

Your assembly point is:

F/P MS039 300x200  
S/A MS040  
P/L MS069

**Fire action**

**Operate the nearest fire alarm.**

**Leave the building by the nearest available exit.**

**Report to the person in charge of the assembly point at:**

**Do not use lifts.**  
**Do not return to the building for any reason until authorised to do so.**

F/P MS072 300x200

## Fire Action for the Physically Impaired

## Fire Action for Care Homes

**Evacuation For Disabled People**

All staff should be aware of the specific needs of a disabled person. The needs differ from person to person.

**Wheelchair Users**

Assist Wheelchair users along specific escape routes towards the identified refuge point

**Do not use lifts**  
**Do not attempt to lift the wheelchair or occupant unless trained to do so**

**People with impaired vision**

Look for people who may be identified as having impaired vision by wearing this sign.

Look out for people who may be disorientated. Tell them your name and speak clearly giving instructions. Offer your arm to lead them through the evacuation route identified by the rousing man. Provide continual commentary as to where you are going.

**Do not point - gestures will go unnoticed**

**People with Impaired Hearing**

These people may not have heard the alarm. Attract their attention in some other way. Ensure that they follow the evacuation route identified by the escape route signs.

You will need to be sensitive to the following other group of people who may need special attention  
Asthmatics - Epileptics - Young Children - Expectant Mothers - The Mentally Ill - People with Learning Disabilities - Elderly People

F/P MS098 300x200  
S/A MS099  
P/L MS100

**Refuge Point Fire Action**

In the event of a fire:  
This refuge affords fire and smoke protection for approximately [ ] minutes.  
The evacuation plan in operation within these premises ensures that assistance will arrive at this point within [ ] minutes.

**Disabled persons should:**

1. Remain calm.
2. Wait here until assistance arrives.

**Do not:**

1. Attempt to leave the building unassisted.
2. Leave this point even temporarily.

F/P ES201 200x150  
S/A ES202  
P/L ES265

**Fire action**

1. In the event of fire it is the first duty of all concerned to prevent injury or loss of life.
2. For this purpose, you should make certain that you are familiar with all the means of escape in case of fire. Since there may be an opportunity, in the event of fire, for you to attack it with the nearest fire extinguisher or hose reel, you should also be familiar with how to use them.
3. IF YOU DISCOVER A FIRE or one is reported to you, you should:
 

**SOUND THE ALARM**
4. The Principal or the authorised deputy is responsible for ensuring that the Fire Brigade is called immediately on the sounding of the fire alarm
5. Immediately after the fire alarm has been sounded, you should
  1. See that any doors immediately surrounding the fire situation are closed
  2. Escort persons away from the area of the incident in accordance with the detailed fire drill procedure ensuring that all doors through which you pass are closed after you
  3. When the persons arrive at the assembly point, which is [ ] call the roll and notify the Principal at once of the result (for example "all persons present" or "one missing" and the name(s) and likely location(s) as the case may be).

F/P MS101 300x200  
S/A MS102  
P/L MS103

**Fire action**

**THE PERSON DISCOVERING A FIRE WILL:**

1. Operate the nearest fire alarm (The fire brigade must be called immediately)

**ON HEARING THE FIRE ALARM**

By night:  
Put on dressing gown and house shoes  
**DO NOT stop to get fully dressed**  
Ensure others in your room are fully awake  
Go to the place of assembly, shutting all doors behind you

By day:  
Go at once to the place of assembly  
**AT ALL TIMES - ACT QUIETLY**  
**DO NOT stop to collect your personal belongings.**  
**DO NOT attempt to pass others on your way to the place of assembly**

The place of assembly is:

## Fire Safety Log Book

## Fire Safety Log Book Holder

The complete guide to fire safety. Keeps critical fire safety information in one place. Easy to use with step by step instructions.

Includes tips on staff training, fire drills, fire alarms, fire doors, fire extinguishers and emergency lighting.

Sections to record fire drills, equipment maintenance, staff training and important contacts.

FS076

Provides easy, visible storage for the Fire Safety Log Book. Contains a sticker indicating when log book is missing.

Can be stored against fixed objects by screws and fittings (supplied separately)

FS077

## No Smoking Area Signs

Smokers congregating outside the entrance of your establishment create a noisy, unsightly and unhealthy impression, creating clouds of smoke, second-hand fumes and an obstruction to potential customers. The following signs inform the public where they can smoke and help create a welcoming clean air zone, attractive to customers guests and residents. Manufactured in 3mm dibond a brushed steel finish. Creating an upmarket image in public areas. Other signage can be produced in self adhesive vinyl, exterior grade material or window sticker.

## Smoking & Vaping Signs

You are required by law in England and Northern Ireland to display a no smoking sign in a prominent position at or near each entrance to smoke free premises. The Government has no policy on E-cigarette smoking/Vaping in the UK. Our comprehensive range of signs lets you choose whether you are **FOR** or **AGAINST** vaping on your premises.

- Indoor and Outdoor Use

## Chemical Hazard Signs

These signs are ideal for indicating where hazardous substances are in use or are being stored. Position them in the designated areas, rooms or enclosures to warn of possible hazards.

**IMPORTANT NOTICE TO STAFF**  
**COSHH Regulation Notice**

Under COSHH in the Control of Substances Hazardous to Health Regulations 1988, All persons at work need to know the safety precautions to take, so as not to endanger themselves, or others through exposure to substances hazardous to health. Below are four general classifications of risks.

**KNOW THE APPROPRIATE SYMBOLS, THEIR MEANING & THEIR SAFETY PRECAUTIONS**

Meaning	Safety Precautions
<b>Toxic / Very Toxic</b> May cause serious health risks if inhaled, or ingested, or if it penetrates the skin.	<ol style="list-style-type: none"> <li>1. Wear suitable protective clothing, gloves and eye protection.</li> <li>2. After contact with skin, wash immediately with plenty of water.</li> <li>3. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.</li> <li>4. In case of inhalation, get fresh air and seek medical advice immediately.</li> </ol>
<b>Corrosive</b> May seriously cause destruction of living tissue on contact.	<ol style="list-style-type: none"> <li>1. Wear suitable gloves and eye/face protection.</li> <li>2. Take off immediately if contact with clothing.</li> <li>3. In case of contact with skin, wash immediately with plenty of water.</li> <li>4. In case of contact with eyes, rinse immediately for at least 15 minutes with plenty of water and seek medical advice.</li> </ol>
<b>Harmful</b> May cause irritation, health risk if inhaled, or ingested, or if it penetrates the skin.	<ol style="list-style-type: none"> <li>1. Do not breathe vapour / spray / dust.</li> <li>2. Avoid contact with skin.</li> <li>3. In case of contact with skin, wash immediately with plenty of water.</li> <li>4. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.</li> </ol>
<b>Irritant</b> May cause inflammation and irritation on contact or on contact with undamaged intact skin with spray or if inhaled.	<ol style="list-style-type: none"> <li>1. Do not breathe vapour / spray / dust.</li> <li>2. Avoid contact with skin.</li> <li>3. In case of contact with skin, wash immediately with plenty of water.</li> <li>4. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.</li> </ol>

350x270  
S/A/CL021  
E/R/CL020

**COSHH KNOW YOUR SAFETY SYMBOLS / HAZARD PICTOGRAMS**

<b>Harmful to the Environment</b> Hazardous to the environment and causes aquatic toxicity.	<b>Corrosive</b> Corrosive and can cause severe skin burns and eye damage. It is also corrosive to metals.
<b>Highly Flammable</b> Gases, or liquids, liquids and solids, such as self-heating substances and mixtures; Pyrophoric liquids and solids that may catch fire when in contact with air; Substances which in contact with water emit flammable gases; Self-reactive substances that may cause fire when heated.	<b>Harmful / Irritant</b> Harmful: Acutely toxic; Causes skin irritation, skin and eye irritation; Respiratory irritant; Narcotic; Causes drowsiness or dizziness; or Hazardous to the ozone layer.
<b>Explosive</b> Self-reactive substances and organic peroxides that may cause explosion when heated.	<b>Gas Under Pressure</b> With one or more of the following: Compressed, Liquefied, Dissolved or Solidified gas; May explode when heated; Risk of rapid gas release when heated.
<b>Oxidising</b> Gases, liquids and liquids, which can cause or intensify fire and explosion.	<b>Longer Term Health Hazards</b> With one or more of the following: Carcinogenic; Affects fertility and unborn child; Causes mutation; Respiratory sensitizer, which may cause asthma on breathing difficulties when inhaled; Toxic to specific organs; or May be fatal or harmful if swallowed or if inhaled or if skin absorbed.
<b>Toxic / Very Toxic</b> Handling a chemical that is acutely toxic, in contact with skin, if inhaled or ingested, may be fatal.	<b>General Safety Precautions when using Hazardous Substances</b>

# CREATE YOUR OWN HEALTH & SAFETY SIGNS

## 1 Choose your Symbol

Choose from any of the symbols to the right, or state the symbol you would like and we will find you the most appropriate symbol.

e.g. MA10 (wear gloves)

### MANDATORY Blue circle with a symbol inside stating action that must be taken.

## 2 Choose your Text

State the text you require on your order. when writing your text, please use capital letters.

e.g. Gloves must be worn at all times

### WARNING Yellow triangle, black border & symbol stating hazard warning: Caution.

## 3 Choose your Material & Size

Choose the material and size from the two guides provided below. This determines the cost of your custom made sign.

e.g. (S/A) Self adhesive vinyl

### PROHIBITION Red circle with diagonal bar & symbol stating prohibited action.

### SAFE CONDITION Green with symbol : Information for safe actions - First aid.

#### Price & Size Guide (mm)

Size (mm)	Price
A7 (74x105mm)	See Price List
A6 (148x105mm)	See Price List

A4 (210x297mm)	See Price List
A3 (297x420mm)	See Price List
A2 (420x594mm)	See Price List
A1 (594x914mm)	See Price List
A0 (914x1189mm)	See Price List

#### Materials Code Guide

#### S/A: Self Adhesive Vinyl

- Glossy white vinyl
- Sticks to most clean and dry surfaces
- Peel off backing
- Ideal for indoor and sheltered outdoor use

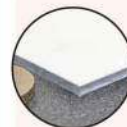

#### P/L: Photoluminescent

- 1.3mm thickness
- Fast activation in dim lighting conditions
- Easily punched or drilled for fixing
- Ultra high initial brightness

#### F/P: Semi-Rigid Polypropylene

- Glossy 1.2mm white flexible material
- Easily punched or drilled for fixing
- Suitable for indoor and outdoor use
- Environmentally friendly

#### F/B: Foam Board

- 3 or 5 mm thickness
- White matt surface
- Water & moisture repellent surface
- Strong and lightweight construction
- Ideal for indoor or outdoor use

WE CAN MAKE ANY SAFETY SIGN TO ORDER - ANY SIZE - MULTI-PURPOSE - CONSTRUCTION. CALL TO DISCUSS YOUR REQUIREMENTS

### Large format high quality digital printing.

From Posters to Pop-ups, PVC banners to Window graphics. Our large format printers do the lot... if you can think it, our large format printers can print it! Indoor & Outdoor Signs & Graphics - Food Menus - Vinyl Stickers & Labels - Canvas & Photo Prints - back lit graphics... and so many more sign and display applications. We also have a Large format laminator. Ideal for extending the print life on exterior and interior signs, graphics and posters. Anti-graffiti laminates are also available.

### Large format digital print and vinyl cut machines.

As the title says, this machine can print and cut vinyl to any shape. Ideal for shaped vinyl stickers & labels -Point of Sale applications - Window graphics and many more sign and display applications.

### Screen Printing

Large or small, screen print is a great way to get volume runs of stickers or signs produced. It's still more cost effective than digital production and can be used for so many different products. We use this process to print many of our signs and stickers featured in our catalogues such as our Fire & Safety sign range, the Bar & Licensing notices and most of our Catering safety signs featured in our Catering Sign Essentials catalogue.

### Dye Sublimation Printing

Sublimation printing is a procedure for transferring full colour graphics or photographs onto a wide selection of products. These include metal, ceramics Uni-Sub plastics and products and glass items all specially pre-coated and therefore, sublimation receptive. Such as ceramic mugs, mousemats, acrylic photo blocks, trophies, awards, high gloss aluminium photo prints and much more besides. We use this process to produce many products featured in our Sign & Display Solutions catalogue.

### Pad Printing

Pad printing is an indirect photogravure process. An image is etched into a flat printing plate and ink is flooded and doctored across the surface leaving ink only in the etch. A silicone rubber pad then presses down onto the etched plate and picks up the ink, which due to solvent evaporation has become tacky. The image is now on the surface of the silicone pad. Silicone rubber does not allow ink to penetrate its surface and therefore when the pad presses down onto the product to be printed it releases the ink as a clean film. The range of inks and solvents used enable the inks to adhere to the surface after releasing the ink the pad is then clean and free to repeat the process. We use this process to produce our range of (HIPS) high impact polystyrene, table numbers and notices. Featured in our Sign Essentials catalogue for Cafe, Bar & Restaurants and our Hotel, Guest House catalogue.

### Engraving

We have a small computerised engraving machine suitable for engraving material up to a size 300x300mm. This machine is ideal for engraving: Name badges, Key Tags, trophy plates and general signage.

### Hot Wire Line Bending

A sheet of thermoplastic material (e.g. acrylic, ABS, polycarbonate) is heated in a strip along its length. Due to the characteristics of the material, it becomes flexible when heated, allowing it to be bent to the required shape. Once cooled, the bent material retains the formed shape.

We use this process to produce our clear acrylic A4 & A5 Menu holders & Information displays. Featured in our Sign & Display Solutions catalogue.

### Picture Framing

Our framing workshop offers a wide range of mouldings to enhance any notice, award certificate, canvas or photo print. You can see various frames featured in our Sign Solutions & Sign Essentials catalogues.

### Our Design Studio

We can print from artwork you supply or our design team can create a design for you, providing visuals for approval prior to print. For full details go to our website and see Artwork FAQ or request a call back or send us an email.
