To Our Valued Customers,

For nearly 70 years you have been able to rely on TableCraft® for an array of products from back-of-the-house to front-of-the-house. While the world is in an ever-changing state, our commitment to our customers has remained the same: getting you the products you want, when you want them. The TableCraft commitment to safety, quality and reliability continue to make us the trusted choice for our global customers and distributors.

We are pleased to extend that same drive and excellence to our new family of Buffet & CaterWare products: an innovative line of solutions that protect your business by keeping hot food hot and cold food cold. Once again, we have you covered by providing your operation with a multitude of products designed to meet the challenges you face every day.

We design and manufacture our items with safe and durable materials and we engineer for functionality and quality. Foodservice today has many pressures and challenges; the least we can do is reduce these pressures by delivering products that simply perform and allow your customers to enjoy their foodservice experience.

We remain true to the TableCraft priority to put the customer first. We are a family business, and we are committed to delivering best-in-class fill-rates, service, and products—all with a conscience for protecting your business and customers.

That has been the TableCraft promise for the last 70 years. We look forward to another year of partnering with you to make this promise a reality.

TABLECRAFT RECOMMENDED CARE & USE FOR YOUR PRODUCTS

Acrylic Pieces

For best results, recommend to hand wash with a soft cloth, mild detergent and towel dry. Do not wash with harsh or abrasive cleaners. Do not put in the dishwasher. Not microwave safe or oven safe.

Melamine Pieces

Dishwasher safe. Due to the size of some of the pieces, hand washing is best. Recommend to use a soft cloth, mild detergent and towel dry. Not microwave safe or oven safe. Safe for temperature up to 212°F/100°C.

Porcelain Pieces

All pieces are dishwasher and microwave safe. Due to the size of some of the pieces, hand washing is best. Recommend to use a soft cloth, mild detergent and towel dry.

Recycled Green Glass

For best results and due to the size of some of the pieces, recommend to hand wash with a soft cloth, mild detergent and towel dry. Due to the nature of recycled glass, it is common to notice bubbles and small lines in the finished product. These characteristics are the hallmark of recycled glass — no two pieces are exactly alike. Not microwave safe or oven safe.

Stainless Steel Pieces

Dishwasher safe. For best results, recommend to hand wash with a soft cloth, mild detergent and towel dry immediately to maximize their beauty. Do not wash with harsh or abrasive cleaners.

Galvanized Steel

Hand wash with soft cloth, mild detergent and towel dry. Do not wash with harsh or abrasive cleaners.

Black Metal, Chrome Plated Baskets or Racks

For best results, recommend to hand wash with a soft cloth, mild detergent and towel dry. Do not wash with harsh or abrasive cleaners. Do not put in the dishwasher.

Polypropylene or Vinyl Baskets, Ridal Collection™ (Handwoven, Polypropylene Baskets)

Dishwasher safe (low temperature). Not microwave safe or oven safe.

Willow or Bamboo

For best results, recommend to hand wash with a soft cloth, mild detergent and towel dry. Do not wash with harsh or abrasive cleaners. Do not put in the dishwasher.

Polyethylene/Plastic Baskets

Dishwasher safe (low temperature, top shelf), microwave safe (for re-heat only) and heat lamp safe at up to 150°F/65°C.

Polyethylene/Plastic Bottles

Dishwasher safe (low temperature, top shelf).

Wood Products (bread boards, salad bowls, pepper mills, etc.)

Recommend to hand wash with a soft cloth, mild detergent and towel dry. Do not wash with harsh or abrasive cleaners. Do not put in the dishwasher.

Menu Covers

Recommended to hand wash with a soft cloth, mild detergent and towel dry. Do not put in the dishwasher.

ELT

CW30157, CW30158, CW40195, CW40196

The ELT Listed Mark is proof of product compliance (electrical, gas and other safety standards) to North America safety standards.

Silicone Servers

Silicone Servers are designed to handle high operating temperatures in both dry heat and steam heat applications (-20 up to 425°F). Silicone Servers are inert, odorless, tasteless and hypo-allergenic. They are available in a variety of shapes and colors and can go from refrigerator to oven. The Original Silicone Servers are the most durable product available for hot food applications.

Naturals

The “Naturals” are made of a food safe cast aluminum without the coating and is NSF approved. These items can endure temperatures from -20 up to 450° Fahrenheit. When using a non-caustic detergent, the product is dishwasher safe. Staining will occur if acidic foods are put into the natural products

NSF Listing

This catalog was printed February 2014. Item listing is constantly updated, please see NSF.org for the latest listing information.

Quick Ship

All items marked QS are quick ship items. Quick ship items ship within 72 hours from receipt of order.

For **cast aluminum** items marked QS, no more than 50 pieces can be ordered to ship within 72 hours.

Coated Cast Aluminum

All products coated Coated Cast Aluminum are NSF approved and will endure temperatures from -20 up to 212° Fahrenheit. (DO NOT BAKE in the coated color products). If a fault in the coating appears, such as peeling or chipping, the product must be taken out of service immediately and repaired or replaced. The intended purpose of the color coated products is for serving & display only. They are not to be used in the preparation of food. Some use environments are, but not limited to, buffet lines, chafing dishes, catered environments, and in food display cases. Do not cut directly on the products, this will cause the coating to scratch and do not put any of the products in a oven, on a stove top, under a heat lamp or in any other condition where the temperature exceeds 212°F. Washing by hand is recommended, but when using a non-caustic detergent, the coating is dishwasher safe. Do not clean with scouring pads. Only use nylon or sponge pads. Regular dish washing will dull the coating. Do not use metal utensils on the color coated products, use plastic utensils only. NOTE: Staining of all color coated products will occur especially if used with foods that contain a high acidity. The lighter (white, ivory, sky blue, and gray) colors are more likely to show the stain than darker colors. Staining of products is not covered under warranty.
